

## ALICE JOHNSON **CIVIL ENGINEER**

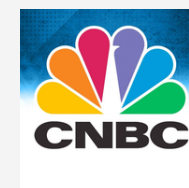

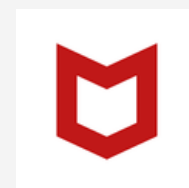

60 | Widowed | Civil Engineer | Denver, CO

- Values financial stability and seeks secure tools to protect against fraud and ensure retirement savings.
- Isn't sure what potential threats are
- Comfortable with basic technology, but **requires some assistance with advanced security features** and navigating digital platforms.
- Uses digital platforms for banking and appreciates clear instructions and support for new security measures.

"As an engineer, I value secure and reliable systems. I'm eager to learn new methods for safeguarding my financial assets and contributing to a secure online environment."
